

**CULTURAL  
AWARENESS**

**OBSERVANCE**

**National Disability Awareness Month**  
October

**DON'T SET  
LIMITS ON  
UNLIMITED  
POTENTIAL**

Some people are born with disabilities and others develop them after an illness or accident.

Disabilities are not contagious and you can't "catch" a disability.

Many people around the world have disabilities. In fact, one-fifth of the world's population have disabilities. That is over 650 million people!

People encounter many different forms of barriers every day.  
But for people with disabilities, barriers can have greater impact.
